Did you know?

The laws in Queensland are changing and from 2017 it is compulsory for all children to undertake a full-time Prep Year, before they can begin Year 1. New report on Queensland state schools now available

Did you know that all Queensland state schools are reviewed by the Department of Education and Training every four years? The reviews are undertaken by the department's School Improvement Unit (SIU) and are a great way for schools to get quality, independent feedback on what they're doing well and where they can improve. The SIU recently published its first annual report, which is a comprehensive analysis of the 369 school reviews it conducted last year. The report found that Queensland state schools are doing some great work, including the commitment of staff, positive learning environments, care and concern for students, and a strong focus on improving literacy and numeracy achievement. A short animated video highlighting the key findings from the report is available online. To watch the video or to read the report, visit the [School Reviews website \(www.schoolreviews.eq.edu.au\)](http://www.schoolreviews.eq.edu.au).
